EXPERIENCE

Tops Technologies

02.2023 - 12.2024

Intern

Gained hands-on experience in various software programs, increasing proficiency and expanding technical skill set.

PROJECTS

Food Billing System

User Interface Development: Created a simple console-based interface that allows users to select food items from a predefined menu, enter quantities, and view their total cost. The interface enhances user experience by providing clear prompts and easy navigation.

Billing Calculation Logic: Implemented functions to calculate the total bill based on selected items and quantities.

Data Management: Utilized basic data structures (like dictionary) to store food item details, prices, and available stock.
